## Donate Services

Since its inception in 1987, PBD has channeled more that \$3.5 million in products, labor and services to over 100 community service agencies in the Bay Area.

Help us to continue this contribution to our community by joining a project team. Design projects are directed by interior designers who supervise other volunteers in creating beautiful and productive spaces out of drab and dreary places. We welcome your partnership!

Our projects require diverse skill sets including:

- Interior designers
- Interior architects
- Decorative painters
- Facilities planners
- People with willing attitudes (and a good sense of humor) to paint or move small quantities of furnishings.

Please fill out this form and mail it back to us, or simply email us all of the information requested below. A member of staff will then contact you.
